## SACRAMENTO FIRES UNDER CONTROL

Large Number of Men Fight  
Flames That Threaten  
Cloudcroft.

Alamogordo, N. M., June 20.—The Sacramento mountains fire is under control. There was no serious damage. It never amounted to so much more than to become threatening.

Cloudcroft, N. M., June 20.—Two forest fires that looked extremely serious for a while raged in the nearby canyons Saturday and Sunday night—one in Cox canyon and one in Alamogordo canyon. At the height of the dance at the pavilion, superintendent Roe telephoned in for 250 volunteers to help fight the fire in Alamogordo canyon, which was then sweeping the country; it was a mile wide and coming up the canyon fast.

He said: "Wagons were loaded full of men, others mounted horses and sped away along narrow mountain trails, across dark canyons and on to battle with the flames and embers. It was extremely exciting for a while, and with just a tinge of danger in the air, it drew everyone closer and those who had only looked and smiled at each other, were now most earnest in terms and laying plans in case real danger threatened."

A message at daylight relieved all minds by stating the fire was under control unless a wind came up. Today the flames are said to be completely under control.

The fire is supposed to have caught from an engine.

With weak stomach and  
More or less illness because

Simple and healthful plan  
Of the following breakfast:

Some fruit  
Grape-Nuts with cream  
One or two soft cooked eggs  
Some nice crisp toast  
A cup of well-made Postum.

A man says:  
"I couldn't go on that until noon."

One or two day's trial  
Will teach him some big facts

And make him "fit as a lord."

There is a deep, underlying  
And scientific reason.

The best argument, however,  
Is the actual experience  
With such breakfasts.
